

## Giving Module

The Everi Cares Giving Module™, the feel-good payments product, makes social consciousness a priority with meaningful ticket redemption.

Adding the award-winning Giving Module to your Everi full-service kiosk (FSK) provides casino patrons a platform to easily donate change from redeemed vouchers, and operators a new avenue to promote corporate social responsibility and support their communities while lessening ticket abandonment and coins dispensed.

The simple interface prompts patrons to donate to one or more charities after a voucher is inserted, accepted and fully redeemed through the kiosk. Displayed charities are chosen from a list of fully vetted organizations that have been qualified as legitimate and in good-standing as recognized by the IRS to participate in and accept donations through the module. Charities can be national or regional, giving casinos an opportunity to generate monies for their local communities and create good will.

## Features & Benefits

- Benefits four charities, which can be local to the community to reinforce philanthropic efforts
- Engages patrons with the casino's corporate responsibility programs
- Establishes the local gaming community as an ally of organizations who are striving to raise community awareness and betterment
- Reduces coin on the floor
- Reduces coin handling costs
- Reduces abandoned tickets and escheatment of abandoned tickets
- Supports a coinless gaming environment
